**Supplementary Figure 1.** Risk of bias of included randomized controlled trials (A, B) and cohort studies (C, D). (A) Risk of bias graph of randomized controlled trials: review authors’ judgements about each risk of bias item presented as percentages across all included studies. (B) Risk of bias graph of randomized controlled trials: review authors’ judgements about each risk of bias item for each included study. (C) Risk of bias graph of cohort studies: review authors’ judgements about each risk of bias item presented as percentages across all included studies. (D) Risk of bias graph of cohort studies: review authors’ judgements about each risk of bias item for each included study.
Lee HJ, et al. Therapeutic vs. prophylactic anticoagulation in COVID-19 patients

C

The possibility of target group comparisons
Target group selection
Confounder
Exposure measurement
Blinding of assessors
Outcome assessment
Incomplete outcome data
Selective outcome reporting

Low risk of bias  Unclear risk of bias  High risk of bias

D

The possibility of target group comparisons
Target group selection
Confounder
Exposure measurement
Blinding of assessors
Outcome assessment
Incomplete outcome data
Selective outcome reporting
